

## The Advantages of Adding ZixArchive to Your Office 365 Environment

Office 365 offers email archiving, but many companies add an enhanced solution that makes it easier to enforce retention policies and provides a faster and easier search capability.

**Here is how ZixArchive can help enhance your Office 365 environment and ease archiving and e-discovery:**

With ZixArchive, you can retain

**100%** of your **email data**

without additional service fees.

The **FAST** and **FLEXIBLE** search capabilities of ZixArchive

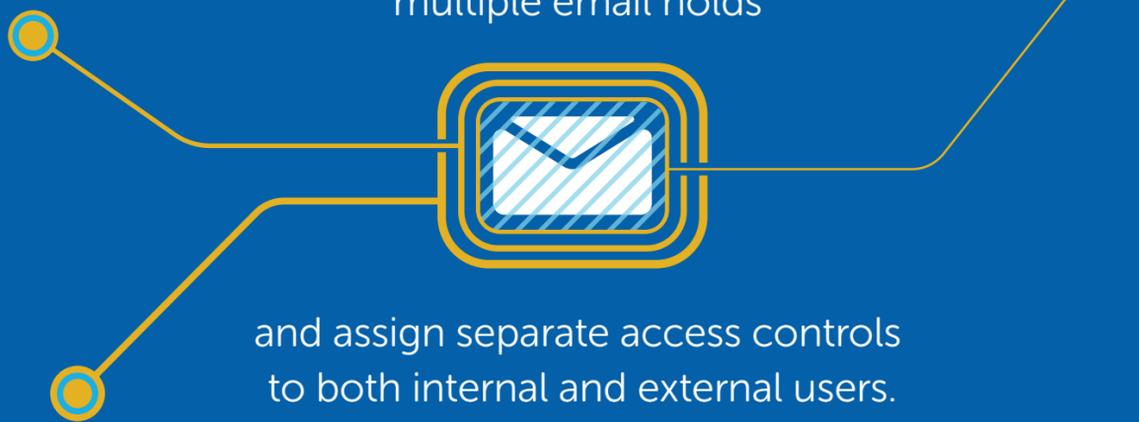

enable you to create an email hold **QUICKLY** and **EASILY**.

ZixArchive's random sampling allows you to **TEST** and **VERIFY**

a percentage of company emails to ensure employee communication is appropriate and meets regulatory requirements.

With ZixArchive, you create multiple email holds

and assign separate access controls to both internal and external users.

**No matter your need or question, the Zix support team is available**

**24/7/365**

**and ready to speak with you directly.**

ZixArchive seamlessly works with Office 365 to provide customers with unlimited email archiving, enhanced capabilities and superior support.
